

## **REMARKS**

This paper responds to the most recent office action, which action was non-final.

In reviewing the written description, several typographical errors were identified. These errors have been corrected.

The Examiner is thanked for the indication that claims 37-44, 52-54, 57-59, 61-62 and 64-69 are allowed. To expedite the resolution of this case, Applicants have elected to cancel the claims that are currently subject to rejection. By this action, Applicants are not conceding in this application that those claims are not patentable over the art cited by the Examiner, as the present claim amendments are only for facilitating expeditious prosecution of the allowable subject matter noted by the Examiner. Applicants reserve the right to pursue these and other claims in one or more continuations and/or divisional patent applications.

Accordingly, a Notice of Allowance with respect to the allowed claims is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'David H. Judson', with a long horizontal line extending to the right.
